

Message of Support from Parent

I am so sorry to have missed the parent consultation meeting last Monday about the school deciding its future with regards to Foundation status. Please accept this letter as my vote of support for the proposals.

I have read your consultation information with great interest and as an educationalist, I feel the benefits would greatly support the children that you serve and would indeed work towards improving the outcomes for the pupils at Congleton High School.

I am delighted with the freedom it would provide, giving you and your partners the opportunity to work on a more local basis where our community needs will determine the way forward. I believe that working within a local context will support not only the pupils, but also the wider community.

I further believe that the benefits to the staff will result in improved conditions and provide a sense of belonging which is supportive of improved working conditions.

I know you will still work in close partnership with the Local Authority and that will provide a broad outlook which will ensure that your school remains at the fore front of initiatives. Of course the merits of funding are unquestionable, and will naturally benefit all the students at school.

Thank you again for your extensive consultation process and I wish you every success in moving towards Foundation status and I look forward to seeing the school go from strength to strength under your new status.

Kind regards

Jane Millward
